

Iron Method

You will need:

1. Old towel or tea-towel
2. Iron (steam setting off)
3. Parchment Baking Paper
4. Vegetable Peeler, or Paring Knife
5. 100% Cotton fabric (laundered)

Directions:

1. Cut 2 pieces of parchment paper that are approx. 2-3 inches larger than your fabric on all sides.
2. Place towel on surface(ironing board) or counter(you may want 2 towels for a counter top to prevent damage).
3. Place one piece of parchment on towel.
4. Center fabric to be waxed on the parchment paper.
5. Cut your Beezy Wax Nugget in 4 pieces(Fig.1) and place near the center of your fabric or cut in small pieces(Fig.2) with a paring knife or vegetable peeler and scatter over fabric. **(to refresh use less wax)**
6. Place second piece of parchment on top of your fabric and wax.
7. Set iron on hot with steam setting off.
8. Gently press iron on top parchment to melt and distribute wax. Use the tip of the iron and various amounts of pressure to help push wax over the fabric.(careful not to push too much wax outside fabric area)
9. Quickly remove top parchment and lift fabric from bottom piece, if the wax cools too quickly just replace the top piece of parchment paper and run the iron over again.

Oven Method: Set Oven to 200°

1. Place parchment paper on cookie sheet.
2. Center fabric on parchment.
3. Cut wax nugget in small pieces and distribute over fabric. **(to refresh use less wax)**
4. Place in oven for 5 minutes, remove from oven and spread wax with a business card or old paint brush. You may have to put back in the oven to melt more and to ensure even distribution of wax.
5. When evenly melted remove from oven, pick wrap up with tongs until wax cools a bit, hang to set.
